# Little Apple Cars Service Commitment

### Excellence at every turn... and every straightaway

Our dealership's primary goal is to satisfy every customer at every opportunity. You visit our service department regularly, and we have developed a number of ways to make your visit more comfortable and informative. We know that you want straight answers, and that's the only way we will deliver it to you.

We understand that your knowledge of your vehicle and its necessary repairs is probably not on par with the understanding that your technician has. In order to be sure that his findings and reporting is as clear and concise as possible, we use this Vehicle Information Booklet as a tool to help us communicate your vehicle's condition to you.

Our technicians are the most qualified to work on your vehicle. They have trained extensively, and partake in continuing education regularly to be sure that they are up to date on any changes and improvements handed down from the manufacturer. Our service advisors strive to make your experience with us a pleasant one. They are here to attend to your automotive needs as well as communicate effectively with your technician and you.

Please make yourself comfortable in our waiting area. Watch some TV, use your laptop with our free WI-FI access or just relax and enjoy the quiet. Our courtesy shuttle can take you shopping, to a movie or home if you prefer.

We appreciate your business and will continue to strive for excellence in everything we do for you.

## Multi-Point Inspection Checklist

Did your Service Advisor review the results of this multi-point inspection checklist with you?

Chec	ked and OK at this time May Require Future Attention Requires immediate attention
	Vehicle/Dealership Information
	Year/Make/Model
	Stock Number
	Exterior Color
	Interior Color
	VIN
	Date Aquired
	Date Inspected
	Mileage
	[VIN & Dealer Code Check]
	Run and print Vehicle History Report and attach
	Run a Techstream Health Check
	Check outstanding Recalls and SSCs
	[Road Test]
	Cold engine operation performs properly
	Throttle operates properly during cold start
	Vehicle operates properly during warm-up conditions
	Engine performs properly during operating temperature
	Engine reaches normal operating temperature
	Engine fan(s) operate properly
	Brake pedal free play and travel within specifications
	No abnormal vibrations and noises during brake applications
	ABS operates properly
	Parking brake operates properly and within spec
	Seat belt material condition
	Seat belts operate properly
	Transmission/clutch operates smoothly
	Auto transmission operates properly during cold temp
	Auto transmission operates properly during operating temp
	Steering normal in lock-to-lock turning
	Steering wheel centered in straight-line driving
	Vehicle tracks and drives straight on level surface
	Tilt and telescope steering operates properly
	Front wiper operates properly in all modes
	Rear wiper operates properly in all modes
	Washer fluid sprays properly

Wiper blades clear glass properly
Wiper blades return to correct position when off
Speedometer functions properly
Odometer registers mileage in every mode
Cruise control operates properly
Heater operates properly
A/C operates properly
No abnormal noise or vibration from engine
No excessive wind or road noise
No abnormal tire vibration or wheel shimmy
No abnormal squeaks/rattles within interior
[Frame, Structure & Underbody]
Frame/Unibody condition
Panel alignment and fit
Lower body and underbody condition
Suspension-related items for proper performance
Inspect struts/shocks for leaks and wear
Power steering system operate properly no leaks
Wheel covers secure and reasonably free of damage
Tires inflated to spec / free of defect and damage
Min of 5/32" tread depth remaining
All tires of same brand, model, size and rating
Brake calipers and lines operate properly no damage
Brake system contains all needed equipment
Brake pad/shoe linings have minimum of 50% remaining
Brake rotors/drums in spec with no abnormal grooving or color
Exhaust system properly secured with no leaks
Engine/trans mounts with no signs of wear
Drive/axle shafts operate properly with no damage
CV joints/boots operate properly with no signs of wear
Inspect engine for fluid leaks
Inspect transmission case and pan for leaks
Differential fluid level correct with no leaks
[Emissions & State Inspection]
Perform emissions test and/or state inspec, if req
[Under Hood]
Drive belts and hoses free of cracks and damage
Confirm under-hood labels and decals
Air filter in good condition
Battery has no visible damage
Perform battery check with Midtronics GR8
Battery properly sized and secure
Battery properly sized and secure

Charging system operating properly and within spec
Engine coolant level with spec
Coolant specific gravity set to -31 deg F
Change engine oil and filter
Check for evidence of oil gel
Oil, brake, clutch, trans, transf case, power steering, washer fluid at proper levels
Under hood fluids clear and uncontaminated
[Functional & Walkaround]
Owner's manual and TCUV Warr Supplement
Fuel gauge operational
Battery voltage gauge operational
Engine temperature gauge operational
Horn operates properly
Airbag(s) present with no evidence of deployment
Headlights properly aligned
High and low beams operate properly
Tail lights operate properly
Side marker lights operate properly
Backup lights operate properly
License plate lights operate properly
No cracked or broken lenses of exterior lights
Instrument panel/warning lights operate properly
HVAC panel/lights operate properly
Instrument panel dimmer operates properly
Turn signals operate properly and self-cancel
Hazard flashers operate properly
Rear-view interior mirror operates properly
Exterior mirrors' operation and condition
Remote mirror control operates properly
Glass free of cracks, stars and large chips
Window tinting clear and conforms to local reqs
Dome/courtesy lights operate with door cycles
Windows operate properly
Window locks operate properly
Power windows operate from all switches
Audio/Cassette/CD/Aux system working properly
Speakers do not rattle at high volume and function properly
Antenna is present and functional
Clock operates properly
12v ACC power output operates properly
Ashtrays (if equipped) are present and operate properly
Headliner, sun visors, dash pad, upholstery, console, cup holders, trim panels and carpet are in place and in good
condition

Driver floor mat is appropriate for vehicle, properly secured and not stacked on top of another
Doors open and close properly
Door locks, including child safety locks, operate properly
Remote keyless entry and smart key systems operate properly
Master key is present
Theft deterrent system operates properly
Seat adjustments and heater(s) operate properly
Memory seat control operates properly
Headrests function properly
Defogger indicator light operates properly
Rear defogger operates properly
Luggage compartment light operation and trim
Luggage compartment is clean, free of debris and stains
Hood and luggage comp latches operate properly
Interior remote luggage comp release operates properly
Emergency trunk release operates properly
Fuel door release operates properly
Spare tire cover appearance and condition
Spare tire present
Spare has correct pressure and a min of 5/32" tread
No signs of damage to spare tire
Spare tire and storage areas are clean
Spare tire securely fastened
Jack and tools correct, present and secured
Acceptable aftermarket items checked
Removal of unacceptable aftermarket items
[Exterior Appearance]
Body surface condition
Exterior is washed, clean and free of water spots
Paint is free of swirl marks and has an even, high luster
Paint is free of removable scratches
Paint is free of wax residue
Wheels/wheel covers are clean
Wheel wells are clean
Tires are clean and properly dressed
[Engine Compartment]
Compartment is clean
Under-hood heat insulator pad is clean
Engine and compartment are properly dressed
[Interior Appearance]
Interior is free of debris
Dash and vents are clean and properly dressed
All crevices are clean

	Ashtrays and lighter are clean (if equipped)
	Door jambs are clean
	Glove box and console compartments are clean
	Cabin air filter condition
	Seats, carpets, floor mats and headliner free of stains
	Free of odor, including heavy fragrance
	Glass is clean and free of streaks
	[Exterior Repairs]
	Body is free of all dents
	Body is reasonably free of dings
	Paint is reasonably free of scratches and chips
	Vehicle is free of improper paint repairs or mismatched color
	Glass is free of improper repairs
	Bumpers are free of cuts, gouges and mismatched paint
	[Interior Repairs]
	Interior leather, vinyl, plastic, carpet and fabric surfaces free of holes, rips, tears, excessive wear or fading
	No evidence of previous improper wear interior repairs
	[Additional Inspection Items (where applicable)]
	"Fade-away" dome light operates properly
	Sunroof/convertible top operates properly
	Seat heaters operate properly
	Head unit software update
	Nav system operates properly and mem system cleared
	Transfer case smoothly switches from 2WD to 4WD and back
	Truck bed in good condition
	Truck bed-liner in good condition and secured
	Tailgate operates properly
	Backup camera operates properly
	Bluetooth searches for signal
	SOS (Safety Connect)
	Lane Keep Assist operates properly
	Dynamic Radar Cruise Control/Pre-Collision Systems operate correctly
	Intelligent Parking Assist operates properly
	[Hybrid Components]
	Hybrid battery
	Battery control module
	Hybrid power managment control module
	Electric motor/generator operates properly
	ECVT operates smoothly and properly
	Power inverter operates properly
	Inverter coolant level
	EV/Eco/Power modes operate properly
	Check transaxle park mechanism

	Multi-information display operates properly	
	Touch Tracer display operates properly	
	Hill Start Assist operates properly	
	Remote A/C system (if equipped) operates properly	
	Solar-powered vent system (if equipped) operates properly	
	Tread Depth (measured in 1/32")

# Additional Service Recommendations

Red: requires immediate attention.

In the process of inspecting your vehicle for safety and reliability, your technician **Noah S** made the following observations and recommends that you do the necessary repairs to resolve these issues.

Yellow: in need of attention soon.

# Wheel Fastener: Four standard lug nuts. Has anti-theft installed - have key.

#### **Item Description**

A wheel fastener is a nut or bolt, commonly called lug nut's or bolts, that tightly holds the wheel to the wheel hub.

#### Reason

If stripped, missing rusted or damaged in any way the wheel fasteners must be replaced, the wheel fasteners are the only objects holding your tire on your car. If left unfixed the wheel may become loose causing a major safety concern.

#### Item Description

The purpose of the headlamp is to illuminate the road ahead during periods of low visibility, such as darkness or precipitation.

#### Reason

If not repaired, the headlight will not function. In many states, this is a violation of the law and the automobile will not be able to pass safety inspection. This also poses a serious safety threat when operating the vehicle at night, in precipitation or in a low light settings. If a headlamp bulb is not operable, then visibility will be impaired in these conditions.

Wheel Fastener

Headlamp Replacement

### signals).

#### Item Description

A park lamp is the light housing that is illuminated when the automobile's turn signal is activated. A park lamp bulb is the bulb that illuminates the park lamp

#### Reason

If not repaired, the park lamp will not illuminate when the turn signal is activated. This can pose a safety threat when operating the vehicle and in many states will prevent the vehicle from passing safety inspection if not functioning properly.

## \*Tires - 4: 215/60R16 - 4/32, Chopped wear

#### **Item Description**

A tire is a round component made of rubber and reinforced with chords or belts made of several choices of materials. The tire is filled with air or nitrogen and surrounds a wheel's rim to transfer a vehicle's load from the axle through the wheel to the ground and to provide traction on the road's surface. With only four small contact patches between you and the road you want them to be as good as they can possibly be.

#### Reason

According to most states' laws, tires are legally worn out when they have worn down to 2/32" of remaining tread depth. As a tire wears it's important to realize that the tire's ability to perform in rain and snow will be reduced. With 2/32" of remaining tread depth, resistance to hydroplaning in the rain at highway speeds has been significantly reduced, and traction in snow has been virtually eliminated. If rain and wet roads are a concern, you should consider replacing your tires when they reach approximately 4/32" of remaining tread depth.

If snow-covered roads are a concern, you should consider replacing your tires when they reach approximately 6/32" of remaining tread depth to maintain good mobility. Because tread depth is such an important element for snow traction, winter tires usually start with noticeably deeper

Tires

tread depths than typical All-Season or summer tires. Some winter tires even have a second series of "wear bars" molded in their tread pattern indicating approximately 6/32" remaining tread depth to warn you when your tires no longer meet the desired tread depth.

### \*Alignment

#### Item Description

Alignment is one of the key maintenance factors in getting the most wear and performance from your tires. In addition, wheel alignment provides safe, predictable vehicle control as well as a smooth and comfortable ride that's free of pulling or vibration. Today's modern suspensions require a precise four-wheel alignment that can only be achieved through a modern alignment system. This applies to both front and rear wheel drive vehicles. Aligning a car or truck involves the adjustment of the vehicle's suspension, not the tires and wheels. The direction and the angles that the tires point in after the alignment is complete, however, are critically important. There are four factors involved in setting the alignment to specification: caster, camber, toe and ride height.

#### Reason

If not done, you will see uneven or rapid tire wear, pulling or drifting away from a straight line, and wandering on a straight level road. It can also cause extra load on certain suspension components, making them more likely to fail.

### Exhaust - Flange Gasket: AND hardware: Exhaust leak at flange between front pipe and pre-silencer.

#### **Item Description**

An exhaust flange gasket is the gasket that is used to seal where the exhaust pipe is bolted to the exhaust manifold. It prevents exhaust gases from leaking from the exhaust pipe.

#### Reason

A faulty or broken flange gasket will allow exhaust gases to leak out as opposed to moving through the

Alignment

exhaust system as intended.
